PROFESSIONAL SUMMARY

Principal Product Manager with 10+ years building AI-powered platforms and developer tools at enterprise scale. Deep experience in early-stage AI products—from ML-driven engagement optimization to AI speech analytics to hands-on LLM application development. Proven ability to lead through influence across cross-functional teams, manage early adopter programs, and bring new product offerings to market at high velocity. Track record of scaling platforms 10x while maintaining quality and driving measurable business outcomes.

AREAS OF EXPERTISE

AI/ML Product Management | Platform & Developer Tools | Enterprise SaaS at Scale
Early Adopter & Beta Programs | Cross-Functional Leadership | 0→1 Product Development
Product-Led Growth | Customer-Centric Innovation | Agile Methodologies

PROFESSIONAL EXPERIENCE

LEAD PRODUCT MANAGER | Charter Communications

Apr 2025 – Present | Denver, CO (Hybrid)

Building developer platform and programmable network APIs for North America's largest ISP. Own end-to-end product experience including documentation, onboarding, and developer tools.

LEAD BUSINESS ANALYST | Ross Stores, Inc.

Mar 2025 – Aug 2025 | Remote (Contract)

Coached Agile practices and defined requirements for custom merchandising and inventory management software.

EXPERT PRODUCT MANAGER | Vonage / Ericsson

2020 – 2025 | Remote

Led AI-powered video platform serving millions of users across enterprise applications. Managed cross-functional portfolio spanning multiple product areas and led team of 5 PMs. Transitioned to Ericsson Global Network Platform division in 2024 following Ericsson's acquisition of Vonage.

Video Platform (2020 – 2024):

- Scaled platform 10x during tenure while maintaining reliability through periods of explosive growth
- Launched new product in 2021 that grew to 1.5M+ minutes per month by year two
- Led cross-functional migration initiative during pandemic market shifts, coordinating across Engineering, Sales, CX, and Marketing to capture \$3M in revenue within 6 months
- Managed Early Adopter programs for new AI features, gathering customer feedback to validate value and drive adoption before broader rollout
- Established best practices for product discovery, PRD templates, and cross-team frameworks used across PM organization
- Owned client software across iOS, Android, Web, Windows, Mac, and Linux platforms
- Recipient: Key Talent Award & Key Contributor Award for performance

Global Network Platform (2024 – 2025):

- Spearheaded cellular identity and fraud prevention products including next-generation CAMARA Number Verification
- Presented enhanced Number Verification & Network API strategy at Ericsson Innovation Days, generating significant interest among European mobile networks
- Evaluated potential AI-powered offerings for product/market fit, feasibility, and revenue potential

SENIOR PRODUCT MANAGER | Twilio (SendGrid Labs)

2017 – 2020 | San Francisco, CA

Led early-stage AI/ML product initiatives in SendGrid's innovation lab, bringing new offerings from concept to market.

- Drove ML-powered engagement optimization: "right message, right time, right channel" using machine learning on engagement metrics to improve customer outcomes
- Led SendGrid's transition from email API to multi-channel communications platform through strategic roadmap development
- Managed Early Adopter programs to validate new product concepts before full investment
- Introduced Outcome-Driven Innovation methodology to improve precision in identifying customer needs and product opportunities

SENIOR PRODUCT MANAGER | VoiceBase

2017 – 2018 | San Francisco, CA

Built products for AI-powered Speech-to-Text platform, bringing intelligent analytics capabilities to market.

- Developed v3 API documentation, SDKs, and demos for scalable RNN AI Speech-to-Text engine
- Launched Developer Console enabling real-time sentiment analysis, compliance checks, and competitor mention insights
- Reduced support tickets 40% through self-serve tooling
- Company later acquired by LivePerson

PRODUCT MANAGER | Aerohive Networks

2015 – 2017 | Sunnyvale, CA

- Developed APIs and reference applications for enterprise WiFi platform
- Led development of HiveSchool WebRTC product—won ISTE "Best in Show" award
- Co-invented 2 patents for WiFi credential management (15/073,593 & 62/350,158)

PRODUCT MANAGER | Yahoo (B2C)

2013 – 2015 | Sunnyvale, CA

- Managed Mail Monetization products reaching Yahoo's massive consumer user base
- Led Mail Retargeting project driving monetization improvements
- Recipient: Superstar Team Award

AI/ML PROJECTS (GitHub: github.com/Daniel085)

- Hearth: Privacy-first iOS app using Core ML for on-device AI relationship management
- Claude API Experiments: Hands-on exploration of LLM capabilities, prompt engineering, and conversational AI workflows
- iOS-WebRTC-Demo: Production-ready WebRTC implementation with comprehensive documentation

EDUCATION

University of California, San Diego

B.S. in Management Science, Department of Economics

Econometric Regression Modeling Honor Program | Coursework: Java, C++, x86 Assembly

University of California, Berkeley Extension

High Tech Product Marketing & Management

CERTIFICATIONS & PATENTS

- Certified Scrum Product Owner (CSPO) – Scrum Alliance
- Patent 15/073,593: Chromebook Credential Management

- Patent 62/350,158: Seamless Wireless Device Onboarding
